# RINGSCAFF DOMINATOR FESTIVAL NETHERLANDS 2022

## ABOUT GIGANT INTERNATIONAL

Gigant International is a specialist in stage and event construction for festivals, TV productions, temporary infrastructures, sports events, corporate events and indoor and outdoor events. With over 30 years of experience in the event industry, Gigant International is one of the largest festival organisers in the Benelux.

## PROJECT QUICK FACTS

- Project: Construction of the mainstage of the Dominator festival in Eersel, the Netherlands
- Duration: 4 weeks
- Specifications: 70 t of rented RINGSCAFF material in 07 dimensions
- Challenge: large quantities of material were delivered in short time

## SCAFFOLDING CHALLENGE

### TIGHT SCHEDULES AND LARGE MATERIAL QUANTITIES

An absolute must for fans of hardcore music: the Dominator Festival is the largest outdoor festival of its kind and attracts over 50,000 music fans from all over the world every year. And of course, a true hardcore festival cannot go with run-of-the-mil stages but needs to stand out with unusual stage constructions.

This time, our RINGSCAFF modular scaffolding was part of it! The event organiser, Gigant International, has chosen Scafom-rux scaffolding material in the – typical for the event industry – 07 dimensions to build the main stage. The stage builders were already busy setting up the stage days before the first visitors flock to the festival grounds. No doubt that there should be no major delays at such a large-

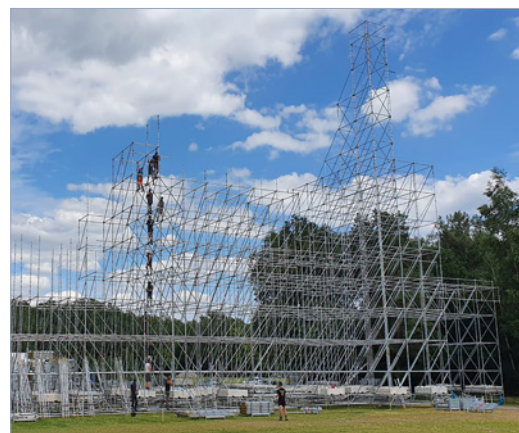

scale event with a fixed date. Both the delivery of the scaffolding material and the assembly were therefore closely timed. It was vital that nothing went wrong. At the same time, large quantities of scaffolding material were needed for the free-standing stage structures. To put this into perspective: a total of 4700 scaffold beams in 2.07 dimensions were used in the main stage alone.

## SCAFFOLDING SOLUTION

### SPEEDY DELIVERY AND NEW MATERIAL

The complete delivery of the rented RINGSCAFF material had to happen within two days. Our team accepted the challenge and organised enough trucks, material and staff in time. The material was also loaded exactly according to the customer's specifications, to ensure a quick assembly process.

Not to forget that a scaffold used at a festival with thousands of eyes looking at it has to look more presentable than on the construction site. Scafom-rux therefore decided to supply completely new scaffolding material for this project.

The fact that the scaffolding was intended for a festival also had an impact on the planning. Thus, a structural engineer prepared drawings and calculations of the free-standing structure in advance to meet the requirements.

## RESULTS

### THE DETAILS MADE THE DIFFERENCE

The entire logistics and construction process ran smoothly. Within 5 days and in time for the start of the festival, the Gigant International crew was able to complete the construction of the main stage. With the enormous amount of material that had to be installed free-standing, small details that made assembly and transport easier, such as the handles on our steel planks, came in very handy for the team.

The Gigant International team was very satisfied with the way their first project with Scafom-rux RINGSCAFF went. Due to the scaffolding material in 07 dimensions and the certified compatibility of RINGSCAFF with other scaffolding systems commonly used in the event industry, it will certainly be seen at the next event soon.

## > ABOUT SCAFOM-RUX

Scafom-rux is a manufacturer, distributor, and rental supplier of premium quality scaffolding and shoring solutions. Our entire team is dedicated to understanding the needs and requirements of scaffolding professionals in sectors like the event industry, construction, oil & gas, mining, shipbuilding, and more.

This way we can provide advice and expertise to find the best possible solution for every scaffolding project worldwide. If you are planning a challenging project or want to learn more about Scafom-rux products and services, please contact us via:

- Mail: [team.benelux@scafom-rux.com](mailto:team.benelux@scafom-rux.com)
- Phone: +31 88 730 7202

Our team will be happy to assist you. For further information about Scafom-rux and our entire product portfolio, take a look at [www.scafom-rux.nl](http://www.scafom-rux.nl).

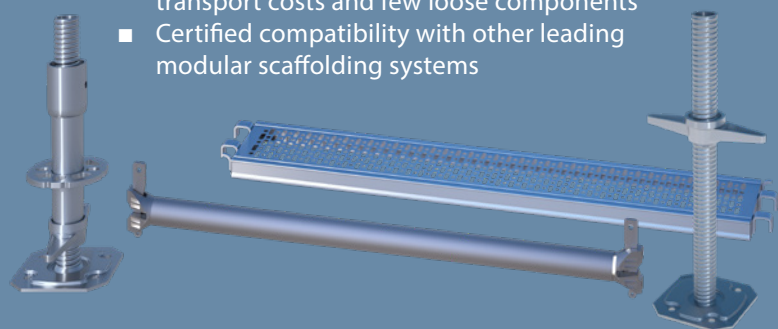

STRONGER. **TOGETHER.**

## > RINGSCAFF FACTS

Scafom-rux modular scaffolding system RINGSCAFF is extraordinary versatile and exceptionally stable - a fact that has been audited and certified by several experts and institutions. Available in 07 and metric dimensions, RINGSCAFF is adaptable to a wide range of projects. More RINGSCAFF advantages include:

- Fast and easy assembly and dismantling
- Extremely durable with a load bearing capacity of up to 6.0kN/m<sup>2</sup>
- Can be used as a modular scaffolding system and/or shoring system
- Very easy to stack, reduced handling and transport costs and few loose components
- Certified compatibility with other leading modular scaffolding systems
