

## TECH INFO

STEEL DECK ULTRA FOR SUPER + SUPER-RS

CLINCH CONNECTIONS, SPECIAL-COATING

# STEEL DECK ULTRA PIN HOOK-UP

## APPLICATION

*The new SCAFF-CORE coating is extremely resistant and allows for thinner walls - and therefore less weight! The clever design reduces the possibility of dirt deposits.*

---

### MATERIAL

Clinched Steel, SCAFF-CORE-Coating

---

### LOAD CAPACITY

up to 6.0 kN/load class 6 (up to 2.00 m length)

---

### SYSTEM

SUPER, SUPER-RS and compatible

---

## TECH INFO

### STEEL DECK ULTRA FOR SUPER + SUPER-RS

#### LIGHTER MATERIAL

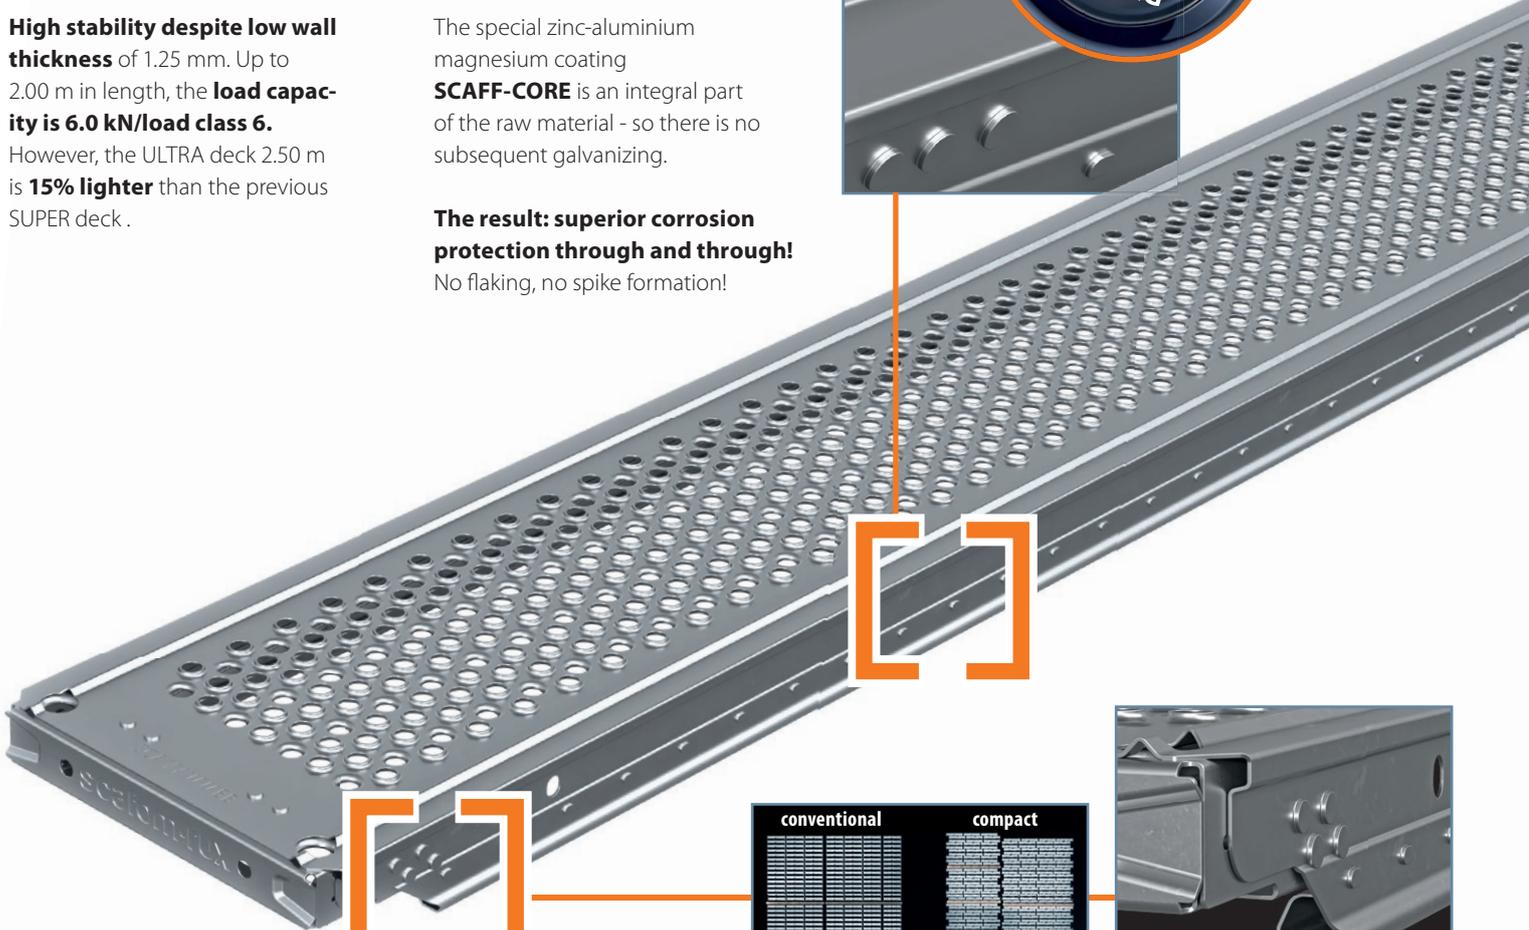

**High stability despite low wall thickness** of 1.25 mm. Up to 2.00 m in length, the **load capacity is 6.0 kN/load class 6.**

However, the ULTRA deck 2.50 m is **15% lighter** than the previous SUPER deck.

#### SPECIAL SURFACE

The special zinc-aluminium magnesium coating **SCAFF-CORE** is an integral part of the raw material - so there is no subsequent galvanizing.

**The result: superior corrosion protection through and through!**  
No flaking, no spike formation!

## STEEL DECK ULTRA FOR SUPER(-RS)

- ULTRA-LIGHT  
- ULTRA-COATED

#### OPTIMIZED STACKABILITY

The **transport volume** can be **better utilized** thanks to the **optimized stackability.**  
This **saves a lot of volume.**

#### CLEVER DESIGN

The sophisticated product design with closed support profile **minimizes contact surfaces for dirt** and **improves torsional resistance.**  
**State-of-the-art clinching technology** completely eliminates weld seams and spot welds.

Article	Length	Weight	Load capacity/ Load class
E04SR0231	0.65 m	4.0 kg	6,0 kN/LC 6
E04SR0232	1.00 m	5.8 kg	6,0 kN/LC 6
E04SR0233	1.50 m	8.3 kg	6,0 kN/LC 6
E04SR0234	2.00 m	10.9 kg	6,0 kN/LC 6
E04SR0235	2.50 m	13.9 kg	4,5 kN/LC 5
E04SR0236	3.00 m	16.0 kg	3,0 kN/LC 4
