

ADVANCED GUARDRAIL INSTALLATION EASIER THAN EVER

The PAG for RINGSCAFF is quickly hooked into the node point and stabilised with a single-sided crank from below. This design allows the guardrail to be installed safely from the scaffold level without the need for additional tools.

Its intuitive mechanism ensures it locks securely in place, making assembly faster, safer, and easier than ever before.

**70%
faster.
Every
time.**

SCAFOM-RUX YOUR PARTNER IN SCAFFOLDING

Scafom-rux is a manufacturer, distributor, and rental supplier of premium quality scaffolding solutions. Our entire team is dedicated to understanding the needs and requirements of scaffolding professionals in construction and industries like oil & gas, shipbuilding, mining, chemical and more. Complemented by additional services like professional training or technical engineering, we can provide advice and expertise to find the best possible solution for every scaffolding project worldwide.

PERMANENT ADVANCED GUARDRAIL

**BUILT FOR SPEED.
ENGINEERED FOR SAFETY.**

Fast or safe - why choose?

The **Permanent Advanced Guardrail (PAG)** by Scafom-rux protects your team right from the first step – no harness, no risky transfers. Just install it from below and get to work.

**Work easy.
Stay safe.**
Install the PAG from the scaffold level below. No climbing or extra safety gear required.

**70% faster.
Every time.**
Save up to 70% time compared to assembling guardrails with scaffolders' steps.

**One system.
Total safety.**
Meets EN 12811 & EN 13374 standards. All-in-one solution combining permanent and advanced safety.

PAG RINGSCAFF

**Permanent:
Stays in place.
Keeps you safe.**

Are you interested in the PAG and how it helps you to take your projects to the next level?

PERMANENT SAFETY
ZERO EXTRA EFFORT

The PAG is designed for the RINGSCAFF modular scaffolding system. That means you can keep working with the equipment you already own – no extra material required. Easy to fold, simple to handle, and always right where you need it: the PAG stays securely in place on the RINGSCAFF standard, ready for action at any time.

TECHNICAL DATA

System	Length (mm)	Weight (kg)	Article no.
RINGSCAFF	1572	10.67	E04RS1604
RINGSCAFF	2072	12.14	E04RS1605
RINGSCAFF	2572	12.54	E04RS1606
RINGSCAFF	3072	15.14	E04RS1607
RINGSCAFF	1500	10.31	E04RS1645
RINGSCAFF	2000	11.94	E04RS1646
RINGSCAFF	2500	12.17	E04RS1647
RINGSCAFF	3000	14.89	E04RS1648

ALL-IN-ONE. ABOVE THE REST.
PERMANENT + ADVANCED.

Premium
safety.
Guaranteed.

Assembled from the level below, the PAG system fully complies with leading safety regulations like TRBS 2121 and SG4 — keeping your team safe at every height.

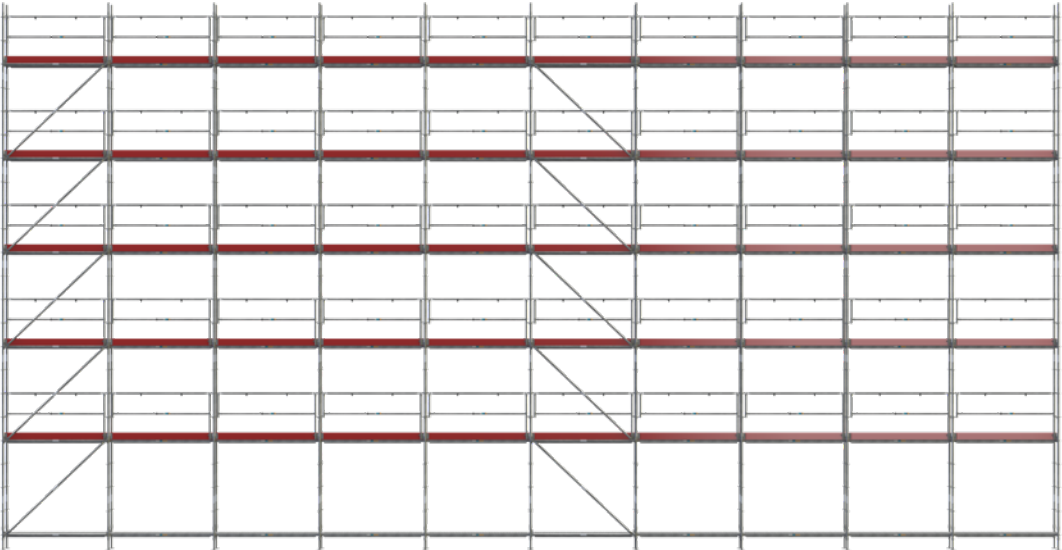

Foldable.
Flexible.
Ready
anytime.

Need to open a bay? No problem. The PAG folds easily and stays compact on the scaffold in its transport position.

Simple setup.
Remarkably
fast.

The folding mechanism makes the PAG particularly easy to handle. Assembly and dismantling can be carried out up to 15 minutes faster than with alternative solutions.

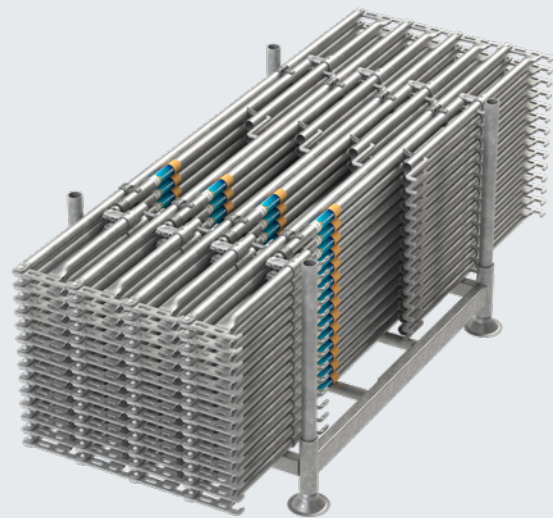

Speed meets safety.
Save up to 70% time per scaffold assembly, while keeping safety first.

A strong and stable product.
Combines durability with smart design.

Smarter
transport.
Less volume.

Thanks to its folding mechanism, the PAG takes up minimal space during transport and storage. Up to 50 guardrails can be stored per rack.

Lift it
when you
need it.

Assemble or dismantle the PAG from inside or outside the scaffold — and lift the toeboards whenever access is required.

Built to last.
Designed for
tomorrow.

Strong, reliable, and ready for every project — proven in the toughest conditions and engineered for years of safe use.
